Bulgaria	2024	Сдружение Ретина България	Retina Bulgaria Association is a patient-led organization that promotes research and advocates for policies for those living with rare genetically inherited and age-related retinal degenerations. The Association is a non-profit legal entity operating for the public benefit	To capture a non-promotional, unbranded activity - video (through a PR agency and a health care journalist) interview with one patient diagnosed with AMD to understand his journey to diagnosis and the reality of living with the condition. This information will be used to educate internal Astellas employees, Ophthalmologists / the broader healthcare community and most likely to be uploaded at the POs website. Patient case studies enable the human experience of living with AMD to be communicated in a way that is more compelling than clinical data or medical perspectives. It engages people (HCPs, employees, and patients alike) in the real-life impact the condition has on a person's life.	1137	BGN
Bulgaria	2024	Сдружение Ретина България	Retina Bulgaria Association is a patient-led organization that promotes research and advocates for policies for those living with rare genetically inherited and age-related retinal degenerations. The Association is a non-profit legal entity operating for the public benefit	Based on a request from Reting BG for cooperation and financial support for the implementation of the campaign "Action for people with macular degeneration" (Action for AMD; Action4AMD) The campaign includes: 1. Communication activities: Translation and adaptation of a Manifesto with political requests "Action for people with AMD " and communication materials intended for candidates for members of the new European Parliament, for national political parties, for associated medical professionals and societies, for the general audience. Conversations and meetings with politicians and rulers in order to get acquainted with the issues (building basic education on these topics among them). Meetings, conversations, and correspondence with leading medical specialists in the field of AMD 2. Working meeting on AMD issues at the National Assembly	14200	BGN
