[Principle 4-8]

The Company adopts the organizational structure of "Company with Audit & Supervisory Board" (or Company with Kansayaku Board). Outside Directors and outside Audit & Supervisory Board Members (Kansayaku) constitute the majority of the Board of Directors and the Audit & Supervisory Board, respectively.

[Supplementary Principle 4-8-1]

The Company holds a regular meeting which consists only of independent outside Directors and independent outside Audit & Supervisory Board Members. Through the meeting, an exchange of opinions is facilitated among them, and it also serves as an opportunity for cooperation between outside Directors, outside Audit & Supervisory Board Members, and full-time Audit & Supervisory Board Members and outside Accounting Auditors.

(<http://www.astellas.com/en/ir/library/pdf/independencestandards.pdf>)

[Principle 4-11-1]

The Board of Directors, in consideration of diversity and balance from the perspectives of expertise and experience and so forth, is composed of a number of Directors appropriate to facilitate agility. [Principle 4-11-3]

The Board of Directors principally serves the oversight function of the execution of business and ensures the transparency and appropriateness of management. Furthermore, the Board of Directors makes decisions on important business execution in addition to establishing the "Corporate Decision Authority Policy" to ensure the agility of management and clarify the responsibility and authority for the execution of business by Executive Officers, etc. As a means of considering issues and making improvements to further enhance such role of the Board of Directors, the Company has conducted an analysis and evaluation of the effectiveness of the Board of Directors, and a summary of the result of the analysis and evaluation is disclosed below.

As for the analysis and evaluation of the effectiveness of the Board of Directors for the fiscal year ending March 31, 2017, the Chairman of the Board of Directors conducted a survey mainly on the oversight function of the Board of Directors based on questionnaires to all Directors and all Audit & Supervisory Board Members, and based on the results of this survey, the Board of Directors performed its analysis and evaluation.

<Conclusion>

It was determined that the Board of Directors is functioning appropriately with Directors, including independent outside Directors, having lively and highly transparent discussions, and that the overall effectiveness of the Board of Directors is sufficiently ensured.

<Reasons for the evaluation>

The Company has accelerated business execution by focusing the Board of Directors' function solely on the appropriate oversight of the executive organs and decision-making on matters legally required to be resolved and matters of primary importance, as well as delegating authority to the executive organs. To enhance the oversight function, measures such as an increase in the number of outside Directors, establishment of Nomination Committee and Compensation Committee, and shortening of Directors' terms of office have been implemented.

The Board of Directors has regularly been receiving from the executive organs the requisite information such as environmental changes, and has determined business strategies of the Company based on such information. Additionally, it has been receiving reports on the establishment and operation of the risk management system of executive organs on a timely basis, and has ensured that necessary information and time for discussion are secured for the oversight.

<Issues>

To enhance the effectiveness of discussions, the Board of Directors will continue to make improvements to the following issues that have been identified:

- In view of discussions regarding optimization of the Board of Directors' function held during FY2016, the Board of Directors will review what should be deliberated and reported in the Board of Directors meetings while reaffirming and reviewing as required the roles and authorities of other committees.
- In determining business strategies, the Board of Directors will further enrich shared understandings on preconditions such as changes in the internal and external environments, while conducting multifaceted deliberations that give additional consideration to various stakeholders.
- While further strengthening frameworks for systematic risk evaluation, the Board of Directors will further promote comprehensive identification of group-wide risk.

[Supplementary Principle 4-14-2]

The Company supports active deliberations at the Board of Directors and Audit & Supervisory Board by providing to Directors and Audit & Supervisory Board Members the information they need to fulfill their roles and responsibilities. In particular, the Company implements training programs for newly elected outside Directors and newly elected outside Audit & Supervisory Board Members, through which they are provided with industry information pertaining to the Company, the Company's business strategies, and other information necessary for them to fulfill their roles and responsibilities.

With respect to particularly important matters, among matters to be submitted to the Board of Directors, the Company works to ensure active deliberations at the Board by providing a forum in advance for sharing information about such matters with Directors and Audit & Supervisory Board Members, including outside Directors and outside Audit & Supervisory Board Members.

[Principle 5-1]

The Company implements the following to promote constructive dialogue with its shareholders.

The Company:

- 1) works, to a reasonable extent, to promote dialog further with shareholders through opportunities such as individual interviews and briefing meetings in addition to the General Meeting of Shareholders;
- 2) endeavors to feedback opinions received through such dialogues to Directors, Audit & Supervisory Board Members and personnel concerned, and endeavors to appropriately reflect such opinions in the Company's activities;
- 3) appoints an Executive Officer responsible for investor relations and overseeing dialogue with shareholders overall and establishes an investor relations department as well as the Corporate Disclosure Committee composed of members from various departments, in order to promotes the timely and appropriate disclosure of corporate information as well as dialogue with shareholders; and
