VESICARE® and VESicare LS™ (solifenacin succinate)

Connecticut law requires pharmaceutical representatives to disclose in writing to Connecticut prescribing practitioners and pharmacists the list price (i.e., Wholesale Acquisition Cost or “WAC”) of marketed legend drugs when engaging in prescription drug marketing in the state. This disclosure provides the WAC price for the products listed below.

The price paid by patients to acquire the products listed is often different than the WAC price listed, and most patients do not pay WAC. How much a patient will pay will depend on the patient’s insurance coverage. To find out the exact cost of a prescription, patients should contact their health insurance company or preferred pharmacy.

*Pricing as of October 1, 2023. The pricing information disclosed above represents the WAC price, which represents the manufacturer’s published catalog or list price for a drug product to wholesalers as reported to third-party drug pricing publishers. WAC does not represent actual transaction prices and does not include discounts, rebates or reductions in price. Pricing information listed does not imply safety or efficacy of the product.
